

**MATERIAL SAFETY DATA SHEET**

**Product :** *Dentavision Mouthwash Concentrate Freshmint*

Product Code : DV0003 – Freshmint 200mL Dispensing Bottle

Page 1 of 3

**STATEMENT OF HAZARDOUS NATURE**

Not classified as hazardous according to criteria of Worksafe Australia

**IDENTIFICATION**

Other Names : Mouthrinse concentrate  
U.N. Number : NA Dangerous Goods Class : NA  
Hazchem Code : NA Subsidiary Risk : NA  
CAS Number : NA Pack. Grp. : NA  
Poisons Schedule : NA

NA = Not Applicable

**PHYSICAL DESCRIPTION / PROPERTIES**

Appearance .....: Green (Freshmint) or plum coloured (Wildberry) solution  
Odour / Fragrance .....: Strong spearmint (Freshmint) or mixed berries (Wildberry)  
Boiling Point (°C) .....: NA  
Vapour Pressure .....: NA  
Specific Gravity .....: > 1  
Flashpoint (°C) .....: NA  
Flammability Limits(%) .....: Not flammable  
Solubility in Water (g/L) .....: Completely soluble  
pH .....: 4 to 5

**Other Properties** ..... : None

**Ingredients :**

Chemical Entity	CAS Number	Proportion
Flavours	-	Medium
Colours	-	Minor
Others	-	Minor

**MSDS : Dentavision Mouthwash Concentrate Freshmint** (continued)

---

Use/Action : Mouthwash concentrate to be used by addition of water for pre-, during and post-operative rinsing to clear, cleanse and refresh the mouth.

**HEALTH HAZARD INFORMATION**

**Health Effects**

**Acute**

Swallowed : Ingestion of the concentrate without dilution may cause irritation to the digestive system.

Eye : Direct contact with the concentrate may cause severe irritation.

Skin : Low irritation expected on contact with skin.

Inhaled : Mild irritation possible if high concentrations of the concentrate are inhaled.

**Chronic :** There are no other known long term health effects expected.

**First Aid**

Swallowed : Give water to drink to dilute stomach contents and seek medical attention.

Eye : Flush with flowing water for at least 15 minutes and if symptoms persist, seek medical advice.

Skin : Flush skin with flowing water for at least 15 minutes. Remove any contaminated clothing. Seek medical attention. Wash or rinse thoroughly any contaminated area. Staining will be avoided if rinsed/washed immediately.

Inhaled : Remove source of contamination or move person to fresh air area. Apply artificial respiration if breathing has stopped. Seek medical attention.

First Aid Facilities : Ensure eye wash facilities are available in the working area.

**Advise to Doctor :** Treat symptomatically.

**PRECAUTIONS FOR USE**

Exposure Standards : None assigned by Worksafe Australia.

Engineering Controls : Ensure areas are well ventilated.

Personal Protection : Gloves should be worn when handling SWIRL concentrate.

Flammability : Not flammable or combustible.

**MSDS : Dentavision Mouthwash Concentrate Freshmint** (continued)

---

## **SAFE HANDLING INFORMATION**

Storage and Transport : Handle containers with care. Ensure containers are tightly closed and stored in a cool area.

Spills and Disposal : Clean up spills immediately. Wear suitable protective clothing. Remove spills using plenty of water and a soft sponge or towel. Remove immediately to avoid staining or damaging surfaces. Material can be disposed of with general waste or flushed through normal sewer systems.

Fire/Explosion Hazard : None hazardous, not flammable.

## **OTHER INFORMATION :**

Product is considered safe if used as intended. Dentavision Mouthwash Concentrate contains food colourings which may stain if left to dry. Dentavision Mouthwash Concentrate can easily be removed from surfaces if rinsed or wiped with sufficient quantities of water. If marks occur, these should reduce with time.

Product is intended for Professional Dental Use only.
