Rotary NiTi & RealSeal Obturation – a perfect combination

2010 MELBOURNE & ADELAIDE

Associate Professor Peter Cathro
MDS (Endodontics), Cert. Tert T, FADI

Upon completion of his MDS in Endodontics (1994), Peter worked in full time specialist practice in Melbourne and then in Auckland. Peter later took a position as a Senior Lecturer at Otago University (New Zealand). In addition to teaching undergraduates and post-graduates, Peter has lectured extensively at national and FDI conference levels and given numerous endodontic hands-on courses throughout New Zealand, Australia and Asia. Peter has recently been appointed Associate Professor at The University of Adelaide (Australia), and maintains an endodontic private practice.

SybronEndo

Rotary NiTi has made endodontic treatment easier and enables predictable obturation results. This full day hands-on course is designed for first time users, those who want to perfect their technique, or for a general update in endodontics.

Course Objectives:

- Biological basis of endodontic treatment
- Differential diagnosis
- Access – cavity outline and straight line negotiation
- Management of sclerosed canals
- Apex locators – trouble shooting
- Stainless steel and rotary NiTi instrumentation – advantages and disadvantages of both
- Golden rules to minimise file fracture
- Apical sizing and preparation
- Irrigation and Medication – current concepts
- Obturation - RealSeal or Gutta Percha
  - Vertical
  - Lateral
  - Bonded carrier system
  - Continuous wave condensation

Participants are encouraged to bring accessed extracted teeth as well as safety glasses & loupes. All other materials will be provided. Two posterior and two anterior teeth are recommended. Please access these prior to the course.
